Selecting subs for your firm?

Qualifications Based Selection

When your firm selects subconsultants for projects, do you use QBS (Qualifications-Based Selection)?

You should.

Breathe easier knowing that projects that use QBS have 70% fewer cost overruns, shorter schedules, and improved construction quality.

#HirethebestwithQBS

QBS

Qualifications-Based Selection

By making your selection based on low bid, you may be taking on risk that could lose clients for your firm and sink your professional reputation.

On the other hand, your subconsultant could actually reduce your risks, save your client money, and enhance your reputation.

If you want the best outcomes – hire the best with QBS!

fewer cost overruns
